How to use Adobe Connect for Online Office Hours

A very useful site for reference on Adobe Connect at WPI is the following: `http://www.wpi.edu/Academics/ATC/Collaboratory/HowTo/AdobeConnect/`

If you plan to use Adobe Connect, you should make sure that your web browser of choice is capable of running the latest version of Adobe Flash Player. You can download the latest version here: `http://get.adobe.com/flashplayer`.

Next, visit `http://connect.wpi.edu` and log in using your WPI ID and password. This will create you as a user in the WPI Adobe Connect system.

In order to connect to the online office hours, you should use the following link: `https://connect.wpi.edu/ma1022e1y2016`, which will be available from 5–6 p.m. on Tuesday and Thursday nights.

Again, if you have questions about Adobe Connect, you should visit WPI's Adobe Connect help page: `http://www.wpi.edu/Academics/ATC/Collaboratory/HowTo/AdobeConnect/`.

If this web page does not answer your questions, then you should contact the WPI ATC, either by walking to their office of the Gordon Library or the Fuller Laboratories, or by sending them an e-mail. Send it to `atc-ttl@wpi.edu`.
